General Description of Your Program	SEARCH students are placed in health professional or medically underserved areas. Placements are in community, farm worker, or homeless health care centers in urban locations; some opportunities also exist for placements in rural areas. Placements are four to six weeks (160-240 hours), and include a clinical rotation and a community-based project that meets the interests of the student and the needs of the health center
Goals and Objectives	Provide community-based educational opportunities for health professional students/residents to enhance the recruitment and retention of clinical providers for medically underserved populations
Activities undertaken by Students/Residents in Program	<ul style="list-style-type: none"> - Student community-based health project - Preceptor mentoring activities - AUCH-sponsored Medical Spanish Language Training Program - HRSA Health Disparities Collaborative tutorial series
